**Subject: ISOFlex Packaging Compliance Information – PFAS Statement All Products**

Dear Customer:

This letter will provide a PFAS Statement compliance information for all ISOFlex Films (hereinafter “the Products”). The information contained herein is based on the state of our actual knowledge (including information obtained from our raw material suppliers), and is neither part of a specification, nor may it be construed as a warranty, express or implied.

**PFAS Statement**

Based on a review of current raw material supplier information, PFAS (per- and poly- fluoroalkyl substances) are not expected to be present in the incoming raw materials. We also do not intentionally add PFAS during manufacture of the product. We do not test for the PFAS in the Products.

Ultimately customers must make their own determination that their use of our product is safe, lawful (except as provided in the above certifications) and technically suitable in their intended applications. Because of possible changes in the law and in regulations, ISOFlex Packaging recommends that customers continuing to use our product verify status every year from the issue date of this letter.

Please contact [Regulatory@ISOFlexpkg.com](mailto:Regulatory@ISOFlexpkg.com) if you need additional information.

Sincerely,

*Ranga Soundararajan*  
Dr. Ranga Soundararajan
